

Restaurant/Quick Service/KDS Software

Powered by QSR Automations

A back-of-house solution to improve kitchen workflow and communication to provide an overall stress-free restaurant.

ConnectSmart® Host is a front-of-house solution that helps manage reservations, waitlists, tables, and serving staff. Plus, it gives you real-time trends and analytics.

ConnectSmart® Go is a smarter off-premise dining strategy. When off-premise orders are routed through **ConnectSmart® Kitchen** to ConnectSmart® Go, you generate a pickup quote based on the amount of actual activity in your kitchen.

Create a consistent dining experience with **ConnectSmart® Recipes**. This easy-to-use recipe software is helpful for training, quality control, and reducing the clutter and cost of recipe binders. ConnectSmart® Recipes ensures accuracy and consistency with minimal training effort when introducing new products and personnel.

ConnectSmart® Insights helps you run a smarter, more profitable restaurant through data visualization and integrations. Track every operational data point in your restaurant, with real-time insights alongside historical analytics. With data visualizations and reports, you can identify trends, make quick decisions, and run a smarter, more profitable restaurant.

KITCHEN ARMOR

Restaurant/Quick Service/KDS Hardware

Powered by Kitchen Armor

STAINLESS STEEL HARDWARE

Kitchen Armor's stainless-steel hardware is a low maintenance solution that is made to handle the harsh kitchen environment without compromising the aesthetics of your kitchen.

FULL SYSTEM PROTECTION

Kitchen Armor's products are designed specifically to protect and conceal cables and power supplies that complete your kitchen system.

TOUCHSCREEN

Kitchen Armor uses projected capacitive (PCAP) touchscreens which are highly responsive and do not require pressure to register contact.

TOUCH DYNAMIC

Restaurant/Quick Service/Rugged Tablet

Powered by Touch Dynamics

The Quest III Rugged POS Tablet with Cherry Trail Processor and EMV Level 3 Certification

The Quest III rugged POS tablet takes the point of sale-specialized design of the Quest II to the next level. With the new Intel™ Atom™ Cherry Trail CPU and standard 64 GB storage, this device is well-equipped to deliver high quality performance over long hours. With 7-inch and 10-inch options available, the device is retail-hardened with an IP rating of IP54 and a 4-foot drop specification.

The standard charging dock that accompanies each Quest III Tablet allows the user to conveniently dock the mobile POS device in the upright position. The optional Premium Charging Dock has a key lock, four USB ports, one Ethernet port, one Serial port, and an optional VGA port.
